

Kanok Health Care

Our clients and patients are part of our family.

Provide for our patients happiness and safety. Raise their quality of life. Enrich their health. Provide a safe and friendly environment.

Nursing Home

Kanok Health Care is a nursing home that focuses on taking care of elderly patients requiring short-term and long-term care and patients requiring rehabilitation.

Kanok Health Care is serviced by a team of highly-qualified and experienced doctors, nurses, and physical therapists following up-to-date public health service standards.

With the professional team's extensive expertise and round-the-clock care, Kanok Health Care aims to serve the patient's overall healthcare needs.

We also provide advice on health and continuous care for patients which helps build the client's family's preparedness and confidence with providing the best care and concern for their loved ones as well as advising the family upon exit from of our facility back to their home environment.

Atmosphere and Rooms

- Rooms are organized to be safe, clean, and well-ventilated to support the care of patients as well as emphasizing overall rehabilitation through physical therapy.
- Nurse call buttons are installed at every bed and portable call buttons are attached to patients in case of emergency.
- The setting is thoughtfully arranged to enhance the patient's social skills, create an atmosphere that increases the patient's appetite, and facilitates activities that stimulate the patient's rehabilitation.
